

Grange Meeting Minutes  
January 10, 2024; 9am  
Town Hall

Holly McCann, Frank Whittemore, and Meghan Gross were present.

Trustees discussed the annual report submission and made small grammatical changes to the text. Holly will make the changes and submit the report today.

Trustees then moved on to a discussion about the Master Plan Survey that was distributed several weeks ago by the town's Land Use Administrative Assistant. Each Trustee reviewed the survey at home before the meeting and there was only one question that we would like to see changed. Question 19 states: "How important is the preservation of historic structures such as the brick schoolhouse?" The Trustees agree that since the brick schoolhouse is not a town-owned property, it should not be used as the example in this question. The Grange and Town Hall are the historic structures owned by the town and will be presented as an alternate.

Trustees would like to formulate a document that describes Grange Trustees roles and responsibilities. Meghan will start a draft and send to Holly and Frank for comments.
