Discussion: Plans for the addition to the Town Hall

A discussion took place centered on plans developed by Salmond Falls for the addition to the Town Hall. Paul Gosselin gave the Board members an overview of the project to date. Peter Merrill had a few questions on the floor plans layout and suggested changes. All Board members were in agreement with the suggested changes made by Peter. Paul wanted to know if the Board would pick a few drawings so the firm could develop detailed 3D drawing for future presentations. The Board picked 3 drawings for Paul to work with. Paul stated it would take a few weeks to get something back to the board. The Board members were ok with Paul's projection. The Board also discussed the overall cost of the project. Paul stated that they have worked with a professional estimator that would give a good overall estimate of what the project will cost. Paul stated he could put the Board in contact with him. The Board agreed that would be a good idea.
