

TOWN OF KENSINGTON
BOARD OF SELECTMEN MEETING
Kensington Elementary School
122 Amesbury Road
Kensington, NH 03833
FRIDAY
JANUARY 12, 2024
Meeting Minutes
10:00AM

In Attendance: Bob Solomon, Robert Gustafson, Becky Ruel, KES Principal, Joe Brackets, KES Facilities Manager

- School was not in session on January 12, thus the group had full access to the building.
- Board members met with the school administration at the main entrance and proceeded to walk through the building stopping randomly in classrooms, Kitchen, multi purpose room, library and bathrooms. Where water faucets were present the water was checked to assure both hot and cold flows and appropriate temperatures. Water testing was discussed and the group was notified that Joe was state certified to test water and that he does testing quarterly. Septic system pumping was discussed and is completed regularly. Ceilings were randomly inspected visually for water staining, there was only very minor staining attributable to condensation in warm weather.
- All agreed that the school is in excellent condition.
- The NHED-School Health Inspection form was filled out and signed by both health officers and the Principal of Kensington Elementary School.
- The meeting was adjourned at 10:45

Respectfully submitted,

Bob Solomon
