

Rockingham Planning Commission Natural Resource Inventory
Wildlife Action Plan 2010
Kensington, NH

Date: 4/8/2013

NHE&G Wildlife Action Plan 2010

- Highest Ranked Habitat in NH
- Highest Ranked Habitat in Biological Region
- Supporting Landscapes

Tier Type	Acres
Highest ranked habitat in NH (by condition)	1,793.0
Highest ranked habitat in biological region	511.5
Supporting landscapes	2,272.2
Total Land in Wildlife Action Plan	4,536.6

NH Fish and Game Wildlife Action Plan 2010

The highest ranking habitats by ecological condition in the state are shown in pink. These areas represent the top 10-15% of wildlife habitat in the state, and are the ones that are likely to maintain biological integrity over the long term.

The green areas shows habitats of highest ranking, condition as compared to all habitats in the same biological region. Since New Hampshire is so diverse in habitats, and the pressures from development are so much stronger in the southern part of the state, this comparison within biological region ensures that all our biodiversity is preserved.

The "supporting landscapes", shown in orange, are areas that are important to the highest ranking habitat because of their interactions with these habitats. Loss of these supporting habitats could easily reduce the quality of the high ranking condition habitats.

RPC Standard Legend

- | Water Features | Road Type |
|-----------------|----------------|
| Waterbody | State |
| Swamp/Marsh | Local |
| Stream / River | Not Maintained |
| Other flow line | Private |
- Town of Kensington (7667.8 Acres)

Base Features (transportation, political and hydrographic) were automated from the USGS Digital Line Graph data, 1:24,000, as archived in the GRANIT database at Complex Systems Research Center, Institute for the Study of Earth, Oceans and Space, University of New Hampshire, Durham, NH; 1992-2012. The roads within the Rockingham Planning Region have been updated by NH Department of Transportation through local input by the RPC where available.

Although these data have been processed successfully on a computer system at the Rockingham Planning Commission, as a warranty of precision is not made, the user assumes all liability for the data on any other use. It is also strongly recommended that careful attention be paid to the contents of the metadata file associated with these data to evaluate data set limitations, restrictions or intended use. Rockingham Planning Commission shall not be held liable for improper or incorrect use of the data described and/or contained herein.
