2012 GRANIT Conservation Lands

Conservation Lands are from the NH GRANIT database. This database includes parcels of land of two or more acres that are mostly undeveloped and are protected from future development. The data was developed from the records of the Society for the Protection of NH Forests (SPNHF), many of the state agencies, and original research from deeds and tax maps. The last update was completed in April of 2012. Additional parcels presented here are the result of more recent mapping work by RPC in an effort to collect other known conservation lands that are not currently listed in the GRANIT database.

1. Permanent conservation land. Land protected from development through conservation easement, restrictions, or outright ownership by an organization or agency whose mission includes protecting land in perpetuity. more than 50% of area will remain undeveloped.

2. Unofficial conservation land. Owned by an agency or organization whose mission is not conservation. Not currently protected.

3. Unprotected Public Land. Tied to be parks or other publicly owned land that offer some recreational opportunities.
