RPC Standard Legend

Water Features	Road Type
Waterbody	State
Swamp/Marsh	Local
Stream / River	Not Maintained
Other flow line	Private
Town of Kensington (7667.8 Acres)	

3 Meter Contour Interval

Digital Raster Graphics
A DRG is a scanned image of a USGS topographic map. The scanned images distributed through GRANIT include only the map body, and exclude any of the map collar information printed on the paper quads.
(For those interested in the complete map as printed, they may be acquired from USGS)

Base Features (transportation, political and hydrographic) were automated from the USGS Digital Line Graph data, 1:24,000, as archived in the GRANIT database at Complex Systems Research Center, Institute for the Study of Earth, Oceans and Space, University of New Hampshire, Durham, NH; 1992,2012. The roads within the Rockingham Planning Region have been updated by NH Department of Transportation through local input by the RPC where available.

Although these data have been processed successfully on a computer system at the Rockingham Planning Commission, no warranty expressed or implied is made regarding the accuracy or utility of the data on any other system or for general or scientific purposes, nor are the data to be used in connection with any liability. The data are provided as is, without warranty, and the user assumes all responsibility for the use of the data. The Rockingham Planning Commission shall not be held liable for improper or incorrect use of the data described and/or contained herein.
