FIRE ALARM APPLICATION

Application is hereby made for the installation or alteration of a fire alarm/detection system. Kensington Fire Rescue requires certain information prior to the installation. Plans and installation shall conform to NFPA 1, NFPA 70, NFPA 72 (editions as adopted and modified by NH State Fire Code) IMSA standards and local ordinances.

INFORMATION NEEDED:

This application shall be filled out completely and returned to the Fire Prevention Division. For new systems: submit two (2) sets of COMPLETE plans. For modification or replacement equipment, one set may be submitted. "Complete" means that the plans and application shall be accompanied by a letter from the designer that plans meet all requirements of state code and local ordinances. The plans submitted shall include all information regarding the system or system alteration work including specification sheets for devices, wiring diagrams/riser diagrams, floor plans (including location of devices), annunciator layout and compatibility of devices.

Approved plans must be on file with Kensington Fire Rescue and a permit issued BEFORE installation work begins. THIS IS NOT A PERMIT.

New plans that have been reviewed and approved by the Prevention Division will be stamped and one copy of the approved plans will be returned to the installer. The Division shall be notified and review any deviations from the approved plan before final testing.

Prior to acceptance tests by Kensington Fire Rescue, a signed Record of Completion shall be submitted to the fire official.

All inspections require a minimum of 2 days advance notice by the installer. A fire official shall witness any operational and final tests as required. The official shall not perform the test. The installer shall provide adequate manpower and equipment for such tests.

Permit fee is \$75.00 per structure (new systems) or \$25.00 for alterations of more than 6 devices, made payable to the "Town of Kensington, NH." For less than 6 devices, submit only the application.

The below signatures are stating that the contractor agrees to the minimum requirements for this installation.

Date of Application: _____

Name of Property: _____

Address of Property: _____

Name / Address / Telephone & Email of Installer: _____

Signature of installer: _____
