A Community Design Charrette Facilitated by:

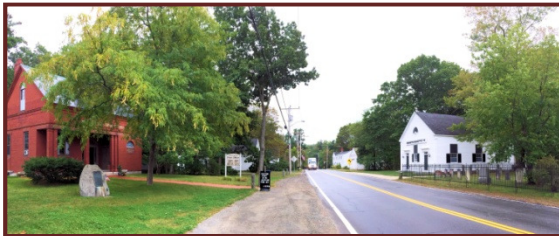

## Your Voice. Your Vision. Your Town.

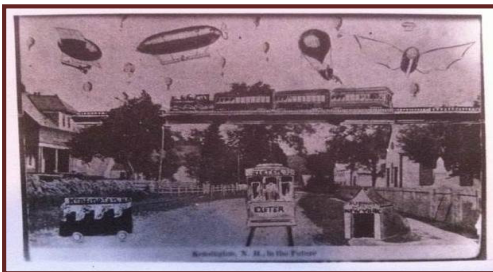

This summer, Kensington was selected for a PLAN NH charrette. A charrette is a weekend-long series of events, revolving around public participation with the goal of determining what our community needs and how we might design our town center to better address those needs. There are no predetermined questions or preconceived outcomes. The charrette is an open invitation for everyone in town to share their voice with a group of NH planning experts. They will give us the best-fit recommendation based on what they hear from you and their experience with other NH towns.

**This won't work without you, and here are ways to get involved:**

**Spread the word:** Share the news any way you can—from conversations to social media—and direct your Kensington neighbors and friends to our **Facebook page: Plan NH Kensington** and the **Plan NH Charrette page on the town website** for more info.

**Donate:** We are raising funds to cover the \$5000 fee that goes to Plan NH and any other costs for the event. **Checks** can be made payable to **Plan NH** (write “Kensington Charrette” on the memo line) and sent to Plan NH c/o Frank Whittemore, 5 Hobbs Road, Kensington, NH 03833. We have also set up a page on the youcaring.com crowdfunding site for those who want to **donate online:** <https://www.youcaring.com/plannhcharrettekensingtonnh-939768>. All donations are tax deductible.

**Help us plan:** We'll need people to help get the word out, make food, park cars, set up tables and chairs, and even make videos. (Do we have a volunteer videographer? Perhaps a student?) We'll also need places for the Plan NH volunteers to stay. Send us an email at [PlanNHKensington@comcast.net](mailto:PlanNHKensington@comcast.net)

## Who is Plan NH?

Plan NH is a non-profit organization consisting of architects, engineers, planners, contractors, municipalities and others. They provide information and inspiration to plan, design, and/or develop beloved NH towns and neighborhoods for a healthy and vibrant 21<sup>st</sup> century.
