

Kensington Conservation Commission

July 12, 2016

Members Present: Sydnee Goodard, Joan Skewes

Call to Order: 7: 30 pm

1. Syd met with SouthEast Land Trust (SELT) regarding the Schrempf appraisal of the land off Wild Pasture Road. SELT is also working with Hampton Falls Conservation Commission.
2. Bodwell updated: SELT is continuing to work with the Bodwells
3. Wolly Adelgid: There is significant evidence that the feeding of the Wolly Adelgid on hemlocks is affecting the canopy of the trees on Wild Pasture Road. These insects can kill a tree in 4 to 10 years according to the NHBugs.org website. Syd will contacted experts to discuss potential action plan.
4. 8:15 pm. Meeting adjourned.
