

Pamela Kehoe, Town Clerk

Town of Kensington

95 Amesbury Road

Kensington, NH 03833

Phone: (603) 772-5423

For Immediate Release:

Kensington Residents can now Request to renew their vehicles On-line 24/7 direct from the Town Web Site

Interware Development Company, Inc. and The Town of Kensington, New Hampshire: In a move to offer citizens a faster, more convenient system to renew their vehicles' registrations, The Town of Kensington, New Hampshire has implemented E-Reg, an online renewal system developed by Interware Development Company, Inc. (IDC) of Mont Vernon, New Hampshire.

Currently available in over 20 states, including Maine, California, Kentucky and Florida, online vehicle renewals are both convenient for citizens and efficient for municipalities. According to Gary Conley, IDC Chairman/CTO, "With E-Reg, the clerks' office is open 24 hours a day, 7 days a week. Citizens can log onto the internet, go to the municipal website, order and pay for their registrations at their convenience."

From the municipal point of view, clerks download and mail out registrations at times that are convenient to the flow of office traffic and demands of their schedules.

Conley states, "E-Reg is a fee-based system that's a win-win situation for citizens and municipalities... it's low cost to citizens and covers the costs of online bank authorizations for the Town. E-Reg streamlines and simplifies the entire process and accepts payment by online bank drafts. Citizens supply their account number and bank's routing number to authorize direct payment."

To access E-Reg go to www.town.kensington.h.us and provide the information required from your current registration. Citizens and Commercial entities can renew one month prior or three months past the expiration date. E-Reg accepts any plate types for the renewal of both the Local and State portion of the registration.

IDC developers introduced AMASE Motor Vehicle software to New Hampshire municipalities in 1990 and mail in notices in 1991. ClerkWorks software was designed for the Town Clerks of New Hampshire to process motor vehicle taxes, dog licensing and point of sale. Interware has a full Fund Accounting Suite of Software to bring completely integrated automation to any town, city or school. For more information, contact IDC at www.interwaredev.com or call (603) 673-7155.
